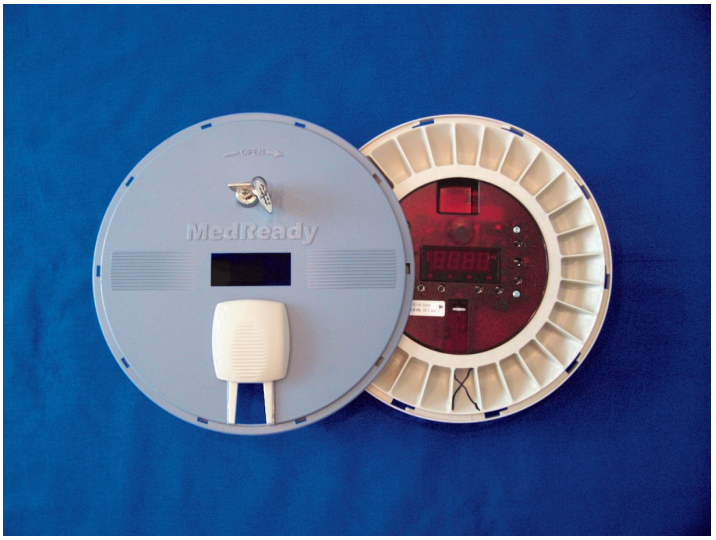
ALERT UTAH

Your Source for Automated Medication Dispensers



OUR AUTOMATED MEDICATION DISPENSER CAN SIMPLIFY THE LIFE OF SOMEONE STRUGGLING WITH THEIR MEDICATION SCHEDULES

At pre-programmed times throughout the day, the dispenser will sound an alarm, then rotates to a slot containing the correct pills for that scheduled time. The user simply opens the small sliding door and inserts a finger into the slot to remove the medications. By opening the door, the alarm automatically stops. When the time comes for the next dose of medications, the small door will slide shut, the tray will advance to the next dose and the alarm will sound again letting the user know that it is time to take their medications again.

- Peace of Mind
- Safety
- Independence
- Easy to Operate
- No Over Dosing
- Security
- Holds Up to 28 Days of Medication
- Monitored for Safety through our Emergency Response System

Why take a chance of a family member becoming a statistic of medication misuse or non-compliance. See how easy it is to set up and use our medications dispenser for the ones you love.

Gain more independence and feel better with our easy-to-use automated medication dispenser
